COMP1036 Computer Fundamentals

Lab 1

1. Download and unzip software packages from:

- https://www.nand2tetris.org/software (or moodle)
- https://www.nand2tetris.org/course

2. Check you can run the **HardwareSimulator** that is in *\nand2tetris\tools*

3. Check you can load a chip (eg. The *xor* chip) in *\nand2tetris\projects\01\Xor.hdl*

4. Check you can edit the *Xor.hdl* file

- Add your name to the original comments and save as *XorNew.hdl* and run

5. Run the test script (e.g. *Xor.tst*) and compare the results (e.g. with the *Xor.cmp* file

6. Check the output file (e.g. *Xor.out*)
